

# Important Reminder

Thank you for choosing Freedom Self Storage. Here are some important guidelines for managing your storage unit:

1

**Insurance we do suggest getting your own insurance as we are not responsible for loss or damaged items.**

Just reference that we suggest getting your own insurance as we are not responsible for loss or damaged items

2

## Prohibited Items

No food or food-like items are allowed as they attract pests. Clean and vacuum furniture and other items to remove food residue before storing.

3

5

## Regular Check-Ups

Visit your unit regularly, ideally a couple of times per month, to check on your belongings. Notify us immediately if you have any concerns.

4

## Non-Climate Controlled

This is a dry storage unit. Avoid storing cloth or soft items unsealed and unwrapped

## Moisture Management

Use wooden pallets or shelving to keep items off the concrete floor to prevent moisture damage. Ensure proper air circulation by keeping boxes and items away from the walls and each other. It does sound great. We do not recommend using cardboard boxes because they may attract moisture, plastic containers are recommended.

By following these guidelines, you can help protect your belongings while they are in storage. Thank you for your cooperation.
