

IMPORTANT REMINDER:

Thank you for choosing Freedom Self Storage. Here are some important guidelines for managing your storage unit:

1. ****Storage at Your Own Risk****: We do not provide insurance for your belongings. Consider obtaining your own insurance.
2. ****Prohibited Items****: No food or food-like items are allowed as they attract pests. Clean and vacuum furniture and other items to remove food residue before storing.
3. ****Moisture Management****: Use wooden pallets or shelving to keep items off the concrete floor to prevent moisture damage. Ensure proper air circulation by keeping boxes and items away from the walls and each other. It does sound great. We do not recommend using cardboard boxes because they may attract moisture, plastic containers are recommended.
4. ****Non-Climate Controlled****: This is a dry storage unit. Avoid storing cloth or soft items unsealed and unwrapped.
5. ****Regular Check-Ups****: Visit your unit regularly, ideally a couple of times per month, to check on your belongings. Notify us immediately if you have any concerns.

By following these guidelines, you can help protect your belongings while they are in storage. Thank you for your cooperation.

Sincerely,

Freedom Self-Storage
